## Vol. 24, No. 15 April 15-19, 2024

## 39 states add jobs year-over-year in March; first-quarter starts decline, ConstructConnect reports

Seasonally adjusted **construction employment** rose year-over-year (y/y) from March 2023 to March 2024 **in** 39 **states**, fell in 10 states and the District of Columbia, and was unchanged in Vermont, according to AGC's <u>analysis</u> of data the Bureau of Labor Statistics (BLS) <u>posted</u> today. California added the most construction employees (33,900 or 3.8%), followed by Texas (28,600, 3.5%) and Florida (23,000, 3.7%). Alaska again had the steepest percentage increase (16%, 2,700), followed by South Dakota (11%, 3,000) and Arkansas (9.7%, 6,000). The largest job losses again occurred in New York (-9,700, -2.5%) and Washington (-8,400, -3.6%), followed by Maryland (-4,700, -2.9%). The steepest percentage loss occurred in Washington, followed by Maryland and North Dakota (-2.9%, -800 jobs). For the month, construction employment rose in 36 states and D.C., fell in 13 states **Trxd[38x}-27.6%** (**int]R50d27M & (int]R50d27M & (int]R50**
